¹ The order of designations listed in this table should not be taken as a form of ranking of importance or level of protection.

² Area (ha) / length (km) within Scotland. Land area of Scotland (down to MLWS) taken as 8,023,384 ha.

³ Total area (ha) covered by SACs WHS & NSAs includes both land and marine area. % figure given is for land area only.

⁴ Total number of sites excludes three previously classified SPAs/Ramsar Sites, which were subsequently subsumed as part of larger sites.

⁵ Ramsar Sites are also known as Wetlands of International Importance.

⁶ The statutory powers to designate Natural Heritage Areas and Limestone Pavements were repealed by the Nature Conservation (Scotland) Act 2004. No sites were ever designated in Scotland under these two designations.

⁷ More than one SSSI may be notified over the same piece of land. The net SSSI area stated in the above table has been adjusted to take account of 2,314.8 ha of land where overlapping SSSIs occur. Total gross area of SSSI in Scotland as at 31 March 2005 is as follows:

SSSI still notified under the 1949 Act	14	2,630 ha
SSSI in force under the 2004 Act	1,437	1,005,009 ha
Total for all SSSI	1,451	1,007,639 ha

11. SSSI : Sites notified or renotified during year to 31 March 2005

No SSSI were notified or renotified during the year under either Section 28 of the Wildlife and Countryside Act 1981 or (from 29 November 2004) under Section 3 of the Nature Conservation (Scotland) Act 2004.

12. SSSI : Sites wholly or partly denotified during year to 31 March 2005

No part of any SSSI was denotified during the year under the Nature Conservation (Scotland) Act 2004.

13. SSSI : Sites lapsing or confirmed during year to 31 March 2005

During the year no SSSI notifications were allowed to lapse at time of confirmation. No SSSI were confirmed following previous notification by SNH under either the Wildlife and Countryside Act 1981 or (from 29 November 2004) the Nature Conservation (Scotland) Act 2004.

14. SSSI : Referral cases considered by the Advisory Committee on SSSI during year to 31 March 2005

During the year 1 new case, involving 1 objector, was referred by SNH to the Advisory Committee on SSSI under Section 12 of the Natural Heritage (Scotland) Act 1991 (from 29 November 2004 under Section 21 of the Nature Conservation (Scotland) Act 2004). This case was in respect of an existing SSSI under the ten year rule. The outcome of this case is shown below.

All objections prior to 1999/2000 are listed in SNH Facts and Figures 1998/99. Those from 1999/2000 onwards are in SNH Facts and Figures for their respective years.

SSSI	Local Authority Area	Lead SNH Area	Objector	Date of Referral	Date of Report	Advice from Advisory Committee on SSSI	Outcome
Bankhead Moss	Fife	Forth & Borders	Dr D. H. S. Reid on behalf of Miss J. Reid	08/06/2004	04/08/2004	SSSI guidelines correctly applied in identifying Bankhead Moss as a raised bog SSSI. The lagg fen is an integral feature of the raised bog. Some areas of lagg fen appear to be excluded from the SSSI. Unable to consider precise position of SSSI boundary due to lack of access and poor quality maps.	Disputed area retained within SSSI.

15. SSSI : Sites in force under the Nature Conservation (Scotland) Act 2004 as at 31 March 2005

Consolidated list of 1,437 SSSIs, covering 1,005,009 ha (net area approx 1,002,700 ha), notified in Scotland under Section 28 of the Wildlife and Countryside Act 1981 and in force (from 29 November 2004) under the Nature Conservation (Scotland) Act 2004 as at 31 March 2005.

SSSIs are areas of special interest by reason of their flora, fauna, or geological or geomorphological features. They cover approximately 12.5% of Scotland and range in extent from 0.1 ha to almost 30,000 ha. There are currently estimated to be approximately 10,000 owners and occupiers of SSSIs in Scotland.

As at 31 March 2005 there were 951 biological SSSI (covering 567,952 ha), 309 geological SSSI (covering 34,804 ha) and 177 SSSI of mixed interest (covering 402,253 ha) in force under the 2004 Act.

¹ SSSI type of interest may be biological only, geological only, or a mix of biological and geological.

² For some SSSI the area data provided from the Citation will differ from the equivalent GIS generated figure.

³ Each SSSI lying within more than one Local Authority is assigned to the Authority with the greatest area of the SSSI.

⁴ Date of most recent notification.

⁵ Where SSSI covers more than one discreet area, only the grid ref for the largest discreet area is listed (and marked *). For linear sites both end points are listed. SSSI listing with full set of grid refs is available upon request.

⁶ Rockall SSSI (57° 35' 48" N, 13° 41' 19" W) lies beyond the extent of the Ordnance Survey Grid.

⁷ The area (ha) figures stated for the cross-border sites at Kershope Bridge SSSI, Penton Linns SSSI and Upper Solway Flats and Marshes SSSI exclude the area of these SSSI in Cumbria, England, because they are not subject to the Nature Conservation (Scotland) Act 2004.

16. SSSI : Sites in force under the National Parks and Access to the Countryside Act 1949 as at 31 March 2005

When the Wildlife and Countryside Act 1981 came into force on 30 November 1981, there were 824 SSSIs, covering 495,524 ha, notified under the 1949 Act. 697 of these SSSI have been renotified under the 1981 Act, and 113, covering 12,311 ha, have been denotified.

As at 31 March 2005 there were 14 SSSIs, covering 2,630 ha, still notified under Section 23 of the National Parks and Access to the Countryside Act 1949, but not yet assessed under Section 28 of the Wildlife and Countryside Act 1981 or (from 29 November 2004) Section 3 of the Nature Conservation (Scotland) Act 2004. These include 3 biological SSSI (covering 475 ha), 9 geological SSSI (covering 1,659 ha) and 2 SSSI of mixed interest (covering 496 ha).

As of 29 November 2004 SSSIs still notified under the 1949 Act are also subject to section 12 of the Nature Conservation (Scotland) Act 2004.

During the year no 1949 Act SSSIs were denotified or renotified or amalgamated into another SSSI under the 1981 Act or 2004 Act.

³ The Strontian River SSSI area (ha) figure is derived from GIS, because no area (ha) figure is stated on the original citation.

⁴ The main stem and major tributaries of the Tweed River SSSI were renotified under the 1981 Act on 02/03/01. The 1949 Act notification has been retained over the remaining tributaries in Scotland not renotified under the 1981 Act.

⁵ The Tweed River SSSI area (ha) figure has never been measured because no fixed boundary exists. The length of the SSSI is 626 km.

17. Nature Conservation Orders in force as at 31 March 2005

Section 29 Nature Conservation Orders (NCO) were made by Scottish Ministers (previously the Secretary of State for Scotland prior to 01/07/99) after consultation with SNH, where it became necessary to reinforce the safeguard of land of special interest where it was either being actively damaged or there was evidence that it was under threat of damage. Recourse to the use of Section 29 Orders was a means of last resort and was used primarily to safeguard a site whilst negotiations continued to secure its future appropriate management. Under Regulation 22 of the Conservation (Natural Habitats etc) Regulations 1994, similar protection was provided to European sites by Special Nature Conservation Orders (SNCOs).

On 29 November 2004, the SSSI provisions of the 1981 Act were replaced by the Nature Conservation (Scotland) Act 2004 (2004 Act). In combination with Regulation 9 of the Conservation (Natural Habitats etc) Amendment (Scotland) Regulations 2004, the distinction between NCOs and SNCOs was abolished and all existing orders were carried forward as NCOs under S.23(1) of the 2004 Act. Such Orders are still a means of last resort to be used where the natural features of an SSSI and/or European site are being damaged or are under threat.

No new NCOs were made during the year. Of the Orders listed in the previous Facts and Figures, two have been removed from the table below because they have ceased to have effect. The Ardersier Glacial Deposits (Hillhead Farm) NCO was revoked on 27 July 2004. The Firth of Forth SNCO ceased to have effect on 31 December 2003 and Scottish Ministers are currently in the process of remaking this Order.

The following table provides a full list of all ongoing NCOs in force as at 31 March 2005.

18. Land Management Orders in force as at 31 March 2005

Land Management Orders (LMO) by Scottish Ministers are made under Section 30 of the Nature Conservation (Scotland) Act 2004 (2004 Act) following proposals by SNH, where it is necessary to conserve, restore or enhance the natural features of an SSSI or a European site. Land Management Orders are a means of last resort where positive action is required on a site, but SNH is unable to facilitate this by any other mechanism. The 2004 Act came into force on 29 November 2004.

No LMOs were made during the year.

19. SSSI / Natura Site damage : Cases reported during year to 31 March 2005

Owners and occupiers of SSSIs notified under the Wildlife and Countryside Act 1981 (1981 Act) were required to consult SNH before carrying out any activity likely to damage or destroy notified features of interest on the site. Acting without consultation could result in prosecution and a fine.

The Nature Conservation (Scotland) Act 2004 (2004 Act) came into force on 29 November 2004, replacing the SSSI protection provisions of the 1981 Act. Under the 2004 Act, private owners and occupiers must not carry out or permit Operations Requiring Consent without a written SNH consent. Public bodies must not carry out any operations likely to damage the natural features of an SSSI (whether or not the operations take place within the SSSI) without written SNH consent. Proceeding without consent could result in prosecution and a fine. It is also an offence for any person to intentionally or recklessly damage the natural features of an SSSI.

Activity : agriculture, development, forestry, recreation, sporting, other activities, and 'unknown'

Short-term damage : damaged interest features likely to recover in three years or less

Long-term damage : damaged interest features likely to require more than three years to recover

Recovery not likely : damaged interest features unlikely to recover

The following table records details of cases where the features of an SSSI or Natura Site have been damaged without the consent of SNH. There were 15 cases recorded during the year where the damage exceeded the threshold of being over 0.5 ha in area or 100m in length or 10% of the interest feature on the site, or where SNH is aware of an incident being reported to the Procurator Fiscal.

Information on 11 further cases reported during the year, but falling below this threshold, has been excluded.

Total number of cases	15											

¹ Natura Site name is included only if damage occurred within the Natura Site.

² Only Local Authorities within which the damage occurred are listed. The rest of the site may extend into other Local Authorities.

³ Where area of damage is covered by both SAC & SPA designations of differing areas (ha), the % of Natura Site damaged is the higher % figure for the two designations.

⁴ In most cases the likely recovery period has been estimated on the basis that effective management will be applied and that this will hasten recovery.

⁵ These cases record continuation of damage previously recorded at this site and the total effect is therefore above the reporting threshold. The three different cases all relate to the same construction project.

21. Areas of Special Protection designated as at 31 March 2005

List of 8 Areas of Special Protection, covering 1,518 ha, designated by order by the Secretary of State for Scotland (now Scottish Ministers) as Wild Bird Sanctuaries under Section 3 of the Protection of Birds Act 1954 or Section 3 of the Wildlife and Countryside Act 1981 as at 31 March 2005.

All Sanctuary Areas established by Sanctuary Orders under Section 3 of the Protection of Birds Act 1954 remain in force under Section 3 of the Wildlife and Countryside Act 1981, where they are termed Areas of Special Protection.

22. Possible Special Areas of Conservation listed as at 31 March 2005

As at 31 March 2005, there is one possible Special Area of Conservation (pSAC) and no existing candidate Special Areas of Conservation (cSAC) with possible additional interests and/or extensions, under consideration for forwarding to the European Commission as candidate Special Areas of Conservation (cSAC) under the EC Directive 92/43/EEC on the Conservation of Natural Habitats and of Wild Fauna and Flora – The Habitats Directive.

The table below excludes details of possible offshore SACs beyond Scotland's 12 nautical mile territorial limit. Consultations on these pSACs are the responsibility of DEFRA. For further information see JNCC website.

Consultation on Sound of Barra was initiated during 2000/01, but a decision on submission of this site has been delayed until further data are available.

23. Candidate Special Areas of Conservation : cSAC submitted to the EC during year to 31 March 2005

During the year the UK Government submitted no sites in Scotland to the European Commission as candidate Special Areas of Conservation (cSAC) under the EC Directive 92/43/EEC on the Conservation of Natural Habitats and of Wild Fauna and Flora – The Habitats Directive. This excludes submissions during the year for minor revisions to data for existing sites, where no public consultation was carried out.

As at 31 March 2005, there are no Candidate SACs in Scotland.

24. Special Areas of Conservation : SACs designated during year to 31 March 2005

All candidate SACs previously submitted to the European Commission by the UK were adopted as Sites of Community Importance (SCI) by the Commission as part of the Atlantic Biogeographical Region site list on 7 December 2004. This decision followed an assessment to ensure that the Habitats Directive had been applied consistently across the European Union. This intermediate stage is required before Member States can formally designate sites as SACs.

During the year, all 238 Sites of Community Importance in Scotland, covering a total area of 962,667 ha, were designated on 17 March 2005 by Scottish Ministers as Special Areas of Conservation (SAC) under the EC Directive 92/43/EEC on the Conservation of Natural Habitats and of Wild Fauna and Flora – The Habitats Directive.

25. Potential Special Protection Areas : pSPAs submitted to Government during year to 31 March 2005

As part of its ongoing programme of public consultation on potential Special Protection Areas (pSPA), during the year SNH completed 3 consultations, 2 on new sites and 1 on an extended site, and submitted them to the Scottish Executive for classification by Scottish Ministers. These additions cover a total area (at classification) of 3,200 ha.

During the year the Scottish Executive also asked SNH to assess 7 new potential SPAs (Anagach Wood, Oronsay / Colonsay, Slamannan Plateau, The Oa, South East Sutherland, Glengarry Lochs and Renfrewshire Heights), 3 extensions to existing SPAs (Orkney Mainland Moors, Caenlochan and Cairngorms), and one additional qualifying species on Gruinart Flats SPA. Public consultation on these proposed additions had not started prior to April 2005 and will commence subject to the formal case being approved.

In addition to the sites listed below, the consultation report for Ladder Hills pSPA was submitted on 21/12/2001, but a decision on classification of this site has been delayed until further data are available.

No consultation reports on new sites were submitted during the year to the Scottish Executive. As at 31 March 2005 no proposed Ramsar Sites are awaiting designation by Scottish Ministers.

29. Ramsar Sites designated during year to 31 March 2005

During the year no new nor extended Ramsar Sites were designated by Scottish Ministers.

30. Ramsar Sites designated as at 31 March 2005

As at 31 March 2005, a total of 51 sites in Scotland, covering a total area of 313,208 ha, are designated as Ramsar Sites under the 1971 Ramsar Convention on Wetlands of International Importance especially as Waterfowl Habitat ratified by the UK Government in 1976. In addition there are three previously designated Ramsar Sites subsumed as part of larger Sites. ^{1, 2, 3}

31. World Heritage Sites inscribed and proposed as at 31 March 2005

World Heritage Sites (WHS) are areas of outstanding natural or cultural value internationally. They can include exceptional examples of outstanding natural habitats or superlative natural features. Sites are listed by the World Heritage Committee of UNESCO under the Convention of World Cultural and Natural Heritage adopted in 1972. A high standard of management is required before listing of a site can be considered. St Kilda, which is owned by the National Trust for Scotland, was Scotland's first WHS, inscribed in 1986. It is also Scotland's only WHS designated for its natural heritage value. There are three other World Heritage Sites in Scotland, Old and New Towns of Edinburgh (1995), Heart of Neolithic Orkney (1999) and New Lanark (2001) designated for their cultural heritage value.

In July 2004 UNESCO approved the renomination of St Kilda to extend the terrestrial site to include the outstanding marine fauna and flora to be found around the archipelago. The accompanying application to recognise the islands' cultural heritage value was deferred. It is expected that the cultural renomination will be considered at the meeting of parties in Durban, South Africa, in June 2005.

Sites on the Tentative List for future submission to the World Heritage Committee were reviewed in 1999. The Cairngorm Mountains (for their landform and geological features) and The Flow Country (for its natural habitats and biological diversity) have been proposed by the UK Government for future submission to UNESCO. SNH has recently sought views on the Flow Country proposal as part of a consultation on the draft management strategy for the existing Natura 2000 designation for the area.

In addition there are two other Scottish sites, The Forth Rail Bridge and The Antonine Wall, on the Tentative List for their cultural heritage value. Preparatory work is also progressing with a pan-European proposal for the nomination of the Antonine Wall. The boundary of each proposed site is subject to further consideration as each nomination is put forward.

32. Biogenetic Reserves designated as at 31 March 2005

In response to the Bern Convention ratified by the UK Government in 1983, the Council of Europe established a network of Biogenetic Reserves, to continue to conserve representative examples of European fauna and flora and natural areas. They are intended primarily for biological research, and are selected from existing NNRs. No special controls are imposed by the designation. SNH advises Scottish Ministers on appropriate NNRs for nomination to the Council of Europe. Two Scottish NNRs, covering 2,388 ha, were included in the network in March 1992.

33. Biosphere Reserves designated as at 31 March 2005

Up to 19/03/02 there were 9 Biosphere Reserves in Scotland, covering an area of 28,800 ha, included in the UNESCO Man and the Biosphere (MAB) Programme, all of which were NNRs (with the exception of Merrick Kells). These were nominated by the UK Government on the recommendation of the Nature Conservancy Council in 1976 and confirmed by UNESCO in 1977. The UK withdrew from UNESCO between 1985 and 1997, during which time the strategy and framework for Biosphere Reserve management changed. The UK rejoined UNESCO and the DETR undertook a review of the 13 UK Biosphere Reserves to assess how well they stand up against the new strategy.

Following the DETR review, SNH recommended that Rum, Caerlaverock, Claish Moss, and St Kilda be delisted due to the difficulty of reconciling these sites with the UNESCO criteria for Biosphere Reserve designation. A formal recommendation for delisting these four Biosphere Reserves was presented by the UK Government to UNESCO on 19 March 2002. These Reserves are now delisted.

Cairnmore of Fleet, Merrick Kells and Silver Flowe is now treated as one composite Biosphere Reserve, but was originally designated by UNESCO in two parts: Merrick Kells – Silver Flowe; and Cairnmore of Fleet. This leaves 4 Biosphere Reserves, covering 11,808 ha, at which the potential for the sustainable development role, envisaged for these reserves under the Seville criteria, will be examined further. There is still the potential for the identification of additional Biosphere Reserves in Scotland.

34. European Diploma of Protected Areas awarded as at 31 March 2005

The Diploma is awarded by the Council of Europe in recognition of exemplary management and protection of areas of outstanding nature conservation and landscape importance, where this includes social and recreational attributes. It is awarded for a period of five years under one of three categories:

Category A : large natural areas in Europe which are not much affected by man and where the aim is to protect the natural heritage, the ecosystems and the wildlife;

Category B : areas where the overriding consideration is to protect the landscape and preserve the areas in their present state;

Category C : areas whose social and recreational function is successfully combined with maintaining their biological or aesthetic features.

Scotland has two Protected Areas which have been awarded the Diploma, Beinn Eighe NNR in category A and Fair Isle NSA in category C.

In 2003 Beinn Eighe's Diploma was renewed for the period 2003–2008. Fair Isle's Diploma is due for renewal in September 2005.

35. Inventory of Gardens and Designed Landscapes as at 31 March 2005

The following table combines information on 275 sites listed in December 1987 within the "Inventory of Gardens and Designed Landscapes in Scotland" with information on additional sites identified in the Lothians, Highlands & Islands and Fife as part of SNH's and Historic Scotland's review on the extension of the Inventory. The Inventory provides a representative sample of some of the most important historic gardens and landscapes in Scotland including private gardens, parks and policies in country estates, public parks, cemeteries, and botanical gardens.

Supplementary Volume 1 Lothians published in June 2001 added 18 sites and updated the Inventory entry of one existing site. Supplementary Volume 2 Highlands & Islands published in March 2003 added 35 sites and updated the Inventory entry of one existing site. Supplementary Volume 3 Fife published in February 2005 added 16 sites. These supplements bring the total area of the 344 Inventory sites up to 69,841 ha. Work on further extensions of the Inventory is continuing.

The Town and Country Planning (General Development Procedure) (Scotland) Order 1992 (GDPO) and Circular 6/1992 puts an obligation on planning authorities to consult SNH and Historic Scotland on any developments affecting 1987 listed Inventory sites. It is expected that a similar requirement will follow for new sites identified in Supplementary Volumes to the Inventory at the next revision of the GDPO.

36. National Scenic Areas designated as at 31 March 2005

National Scenic Areas (NSA) represent nationally important areas of outstanding natural beauty and comprise some of the best examples of Scotland's finest landscapes. They were first identified by the Countryside Commission for Scotland (a predecessor body to SNH) in their report on 'Scotland's Scenic Heritage' in 1978 and confirmed by the UK Government on 19 August 1980 through the issue of Circular 20/1980. National planning policy for NSAs is set out in NPPG14 on the Natural Heritage. SNH is required to be consulted on specific categories of development within these areas.

There are currently 40 NSAs covering a land area of approximately 1 million hectares, extending from the Solway Firth to Shetland.

In 1997 Government invited SNH to review the NSA designation. Following a wide ranging consultation exercise, SNH published its advice to Government in October 1999, setting out how the effectiveness of the designation might be improved and how the present series might be expanded. The Scottish Executive is still considering the detail of SNH's recommendations. In the meantime SNH has piloted the development of NSA Management Strategies for Wester Ross and the three Solway coast NSAs in partnership respectively with the Highland Council and Dumfries and Galloway Council. These pilot Strategies were completed in winter 2002/03.

It is expected that in due course the NSAs within the new National Parks will be subsumed into that designation, and that National Park plans will provide the basis for policies to safeguard the landscape values identified by NSA designation.

37. Regional and Local Landscape designations as at 31 March 2005

A range of other mainly non-statutory designations are used locally to identify areas of landscape or other natural value. Most of these other 'designations' have been created by local authorities through the development plan system. Almost all are not designations in the formal sense of being areas of land or water identified for their special value through a process which has a statutory basis. These non-statutory listings mainly identify places or special features thought to have local or regional importance by their originators, without necessarily having the standing to be incorporated into the more formal national designation series. In some cases, in development plans, they present a zoning approach to policy determination.

One such designation, Area of Great Landscape Value (AGLV), does however have more formal status derived from SDD Circular 2/1962. This advised local authorities to designate areas of outstanding scenic interest to safeguard their future, in particular, areas which can be described as being vulnerable to pressures for development. This designation has been used widely and is referred to in around half of all development plans for rural areas. But there is no consistent basis at present to the use of this designation and Councils take different approaches according to local circumstances.

In addition, around 23 other 'designations' are in use to identify local scenic resources for development plan purposes. Some of these have the word 'Regional' in their title, and are an inheritance from the past arrangements for structure planning and in one case, as in the use of the label Regional Scenic Area (the next most used title), reflect an earlier intention that the National Scenic Area be complemented by a second tier Regional Scenic Area designation, but the arrangements for this were never put in place. Many of the other local designations for landscape are local creations as part of zoning policy in development plans.

More details about these designations and their use may be found in SNH Review Series Report No. 134 – Review of the role of the National Scenic Area and other landscape designations in the Scottish planning system (published 2000). In 2003, SNH initiated a review of these designations with SE, HS and COSLA with the view to preparing advice to help promote consistency in approach to the identification of these areas. It is expected that this guidance will be finalised during 2005.

38. National Parks designated as at 31 March 2005

Scotland's first National Park in Loch Lomond and The Trossachs was designated on 25 April 2002 under the National Parks (Scotland) Act 2000. It was formally opened by HRH Princess Anne on 24 July 2002. Scotland's second National Park in the Cairngorms was designated under the same Act on 7 January 2003. It was formally opened by Liz Hanna (a relative of John Muir – one of the leading movers in the creation of the first National Parks in the USA) and Scottish Minister Alan Wilson on 1st September 2003.

Scotland's two new National Parks cover areas of quite different character. The Loch Lomond and The Trossachs area has a very diverse landscape of lochs, forests and hills located close to the main centres of population in the Scottish lowlands. In contrast, the Cairngorms mountains are the largest and most remote upland area in the UK. Both areas are nationally important for their nature conservation, landscape and outdoor recreation interests, as recognised by the high number of national and European natural heritage designations they contain. They are also both 'lived-in' landscapes, important for some of the natural resources they provide and also to the people who live in these areas and make their living there. Reflecting this, Scottish National Parks have a wider set of aims than many Parks elsewhere and their role in promoting the sustainable social and economic development of their local communities, while safeguarding the outstanding natural and cultural heritage of the area, is explicitly recognised in legislation.

38. National Parks designated as at 31 March 2005 (continued)

Both National Parks are managed by National Park Authorities funded directly by the Scottish Executive. Each of these bodies are governed by a Board of 25 members, comprising representatives from local communities, local authorities and Scottish Ministers. They have a number of general powers for managing the Park area and also specific powers in respect of town and country planning and for managing recreation and access. One of the most important first tasks of the Park Authorities will be to prepare a National Park Plan containing policies for the management of the areas and to co-ordinate the activities of others.

39. Regional Parks designated as at 31 March 2005

Regional Parks, designated under Section 48A of the Countryside (Scotland) Act 1967, are extensive areas of the countryside, which provide for the co-ordinated management of informal recreation alongside and in close collaboration with the management of other land uses in the area. The four Regional Parks in Scotland, extending in total to 86,160 ha, were established by the former Regional Councils and confirmed by the Secretary of State for Scotland. Management of the Parks has now transferred to the new Local Authorities. While still formally designated, the management of the Loch Lomond Regional Park has been taken over by the National Park Authority and has effectively been subsumed into the larger Loch Lomond and The Trossachs National Park.

40. Country Parks registered as at 31 March 2005

Since 1969, 36 Country Parks, covering a total area of 6,481 ha, have been established by Local Authorities under Section 48 of the Countryside (Scotland) Act 1967, and included in the Register established by the Countryside Commission for Scotland.

Country Parks are relatively small areas, readily accessible to the public at large, which are actively managed to provide opportunities for people to enjoy the countryside and informal open air recreation. The range of facilities provided varies from site to site, but all Parks are supported by built facilities and by opportunities to picnic or walk and by programmes of organised events. They are also supported by a Ranger Service to promote visitor enjoyment and understanding of their natural qualities. The majority of Country Parks are owned or managed by Local Authorities with the support of SNH.

41. Long Distance Routes designated as at 31 March 2005

As at 31 March 2005 the total length of the five Long Distance Routes in Scotland, designated under Section 40 of the Countryside (Scotland) Act 1967, amounted to 731 km (456 miles).

The original designated route of the Speyside Way from Buckie to Aviemore was completed and opened in April 2000. The principle of extending the Speyside Way south from Aviemore to Newtonmore was given ministerial approval in 1997 and was confirmed again in 2000. However this extension is not yet open as detailed negotiations are still on-going with the relevant landowners and the exact route has not yet been approved by Ministers. A Public Consultation on the Speyside Way extension to Newtonmore has taken place and a report will be going to Ministers in due course.

¹ The full length of the Pennine Way, including the sections in Scotland and England, is 429 km. The section in England runs from the Scottish Border to Edale in Derbyshire.

² The Speyside Way was first opened in 1981, running from Spey Bay to Ballindalloch. The northern extension from Spey Bay to Buckie followed in 1999. The southern extension from Ballindalloch to Aviemore was completed in 2000. The total length of this route excludes an unofficial 15 mile spur to Tomintoul, which was added in 1990, but has not been designated under Section 40 of the Countryside (Scotland) Act 1967.

42. Local Nature Reserves : LNRs declared during year to 31 March 2005

Local Authorities declared 1 new Local Nature Reserve, covering 21 ha, during the year under Section 21 of the National Parks and Access to the Countryside Act 1949. No LNRs were de-declared during the year.

43. Local Nature Reserves : LNRs declared as at 31 March 2005

Consolidated list of 37 Local Nature Reserves, covering 9,431 ha, declared by Local Authorities under Section 21 of the National Parks and Access to the Countryside Act 1949 as at 31 March 2005.

These Local Authority supported Reserves are sites of special local natural interest, and provide opportunities for environmental education and the informal enjoyment of nature by the public. For more information on LNRs see the leaflet 'Local Nature Reserves: Places for People and Nature' published by SNH in December 2000.

44. Marine Consultation Areas listed as at 31 March 2005

In December 1986 the Nature Conservancy Council published a list of 14 coastal marine areas in Scotland that had been identified as deserving particular distinction in respect to the quality and sensitivity of their marine environment and where the scientific information available substantiated their nature conservation importance. In February 1990 the original list was reviewed and a further 15 areas were added in the light of further survey work, including the current Marine Nature Conservation Review.

The areas have no statutory locus, but are made known to bodies with which SNH consults on marine conservation issues. There are currently 29 Marine Consultation Areas, covering 111,895 ha.

45. National Nature Reserves : NNR declarations and re-declarations during year to 31 March 2005

The following table provides details of SNH declarations and re-declarations made during the year in terms of Section 35 of the Wildlife and Countryside Act 1981. One NNR was re-declared with extension.

46. National Nature Reserves : NNR de-declarations during year to 31 March 2005

Monach Islands NNR No 1 Declaration was superseded by Monach Isles NNR No 2 Declaration 2004 (see table 45). Other than areas associated with this re-declaration, no existing NNRs were de-declared during the year.

47. National Nature Reserves : NNRs declared as at 31 March 2005

Consolidated list of 66 National Nature Reserves (NNRs) in Scotland as at 31 March 2005, covering 117,227 ha, declared by SNH, or one of its predecessor bodies, under Section 19 of the National Parks and Access to the Countryside Act 1949 or Section 35 of the Wildlife and Countryside Act 1981.

Seven NNRs are wholly or partly managed on an Approved Body basis, covering 16,763 ha. SNH wholly or partly lead the management of 61 NNRs, covering 100,464 ha.

There are no Marine Nature Reserves (MNRs) in Scotland. An MNR, established under Section 36 of the Wildlife and Countryside Act 1981, is analogous to an NNR for managing marine sites in British waters. There is one Voluntary Marine Reserve in Scotland at St Abbs and Eyemouth.

¹ May include land outwith the NNR declared area.

² Land secured by SNH in terms of Section 16 'to be managed as a Nature Reserve', but outwith the formally declared boundary of the Reserve.

³ Difference between declared area and total area of supporting interests [Owned, Leased, or NRA] in these cases reflects the use of a different basis of measurement for the declared area.

⁴ Difference between declared area and total area of supporting interests [Owned, Leased, or NRA] in these cases reflects a lapsed Lease or lapsed NRA or conversion of the Lease or NRA into a Section 15 agreement.

⁵ Where NNR covers more than one discreet area, a central grid ref is listed for each discreet area.

⁶ Following the NNR Review the SNH Board has decided that these NNRs do not fit the NNR policy and may be partly or wholly de-declared.

⁷ Airlunde Oakwood NNR and Glencripsdale NNR were formerly part of Loch Sunart Woodlands NNR between 1979 and 1993.

⁸ Leased (ha) figure for Caerlaverock NNR is approximate area only.

⁹ Cairngorms NNR is covered by both NRA and Section 49(A) agreements.

¹⁰ NNR is part managed by SNH and part managed by the Approved Body.

¹¹ The 17 ha of land at Jock's Gill Wood owned by SNH, is not within Clyde Valley Woodlands NNR.

¹² The 412 ha of land at Castlehill on Islay, owned by SNH, is not within Eilean na Muice Duibhe NNR.

¹³ SNH also owns land at Achannaras Quarry and Dunnet Links formerly declared as NNRs but now de-declared. SNH also owns land at Castlehill, Jock's Gill Wood & Rhyndie Chert — see Table 51.

¹⁴ Although Coille Thogabhaig NNR was de-declared in 1995 and Inverpolly NNR was de-declared in 2004, the nature reserve agreements still continue — see Table 55.

48. National Nature Reserves : Summary of overall tenure of NNRs as at 31 March 2005

Totals	66	117,227

¹ Land secured by SNH in terms of Section 16 "to be managed as a Nature Reserve".

² The extent of areas "currently unsupported by SNH ownership, lease, or NRA", reflects an ongoing audit of SNH NNR tenure arrangements in light of the NNR Review.

³ Previous lease or NRA arrangements have been allowed to lapse or be converted to a Section 15 SSSI management agreement pending de-declaration or conversion to Approved Body status or conclusion of new Lease or NRA.

49. Land acquired by SNH during year to 31 March 2005

No land was acquired by SNH during the year for the purpose of managing a Nature Reserve.

50. Land disposed by SNH during year to 31 March 2005

No land held by SNH for the purpose of managing a Nature Reserve under Section 16 of the National Parks and Access to the Countryside Act 1949 was disposed by SNH during the year.

51. Land acquired or disposed by SNH as at 31 March 2005

52. Summary of SNH Servitudes, Nature Reserve Leases and Agreements in force during year to 31 March 2005

In this and the following three tables listings of Servitudes, Nature Reserve Leases and Agreements are categorised by status as follows :

"Ongoing" covers agreements in force throughout the whole year and includes extensions to existing agreements,

"New" covers agreements newly concluded or renewed during the year,

"Expired" covers agreements which expired or were terminated during the year.

Type of Agreement	Number of Agreements ¹		Total at 31/03/05	Area under Agreement (ha) ²		Total (ha) at 31/03/05	Ongoing Agreement	Expenditure 2004/05 ³		Total during year

Nature Reserve Leases ⁵	22	2	24	9,733	1	9,734	£13,759	£4,008	£17,767	
Nature Reserve Agreements	59	3	62	54,264	8,451	54,997	£101,213	£4,800	£132,735	
Overall Total	91	6	97	63,997	8,452	64,731	£115,223	£8,808	£132,735	

¹ Data includes Agreements and Leases for which no payment was made during the year.

² More than one agreement may overlap the same area of land. Therefore the overall net area under agreement may be less than the sum total of individual areas shown in this table.

³ Includes annual, lump-sum or management payments plus arrears & interest, but varies from the Annual Report summary financial data due to the exclusion of payments for professional fees or legal costs.

⁴ Includes cases terminated prior to end of term.

⁵ Includes both building leases and land leases.

53. Nature Reserve and SSSI Servitudes held by SNH during year to 31 March 2005

The following table provides details of SNH expenditure (£250) during the year on Servitudes concluded by SNH, or one of its predecessor bodies, for rights over adjacent land for the purpose of managing a Reserve. The majority of these Servitudes have been made under Section 16 of the National Parks and Access to the Countryside Act 1949, but historically SNH access arrangements to some Reserves have also been secured through management agreements under Section 15 of the Countryside Act 1968, or Section 49(A) of the Countryside (Scotland) Act 1967. At the end of the year SNH held 11 Servitudes.
